

## **Green Cooling Ltd - Modern Slavery Statement**

Green Cooling Ltd is committed to preventing modern slavery and human trafficking in our business and supply chains.

We operate as a commercial refrigeration company providing design, installation, servicing, and maintenance of refrigeration systems across the UK. Our employees are engaged in accordance with UK employment law, and we expect the same high standards from our suppliers and business partners.

Our supply chains support the provision of refrigeration equipment and services and include manufacturers, suppliers, and subcontractors. While we consider the overall risk of modern slavery within our operations to be low, we recognise increased risk within overseas manufacturing supply chains, particularly where goods are imported from China.

We manage these risks through proportionate due diligence, supplier assessments, contractual controls, and staff awareness training. Green Cooling Ltd maintains a zero-tolerance approach to modern slavery, supported by our Modern Slavery Policy and overseen by a designated Slavery Compliance Officer.

This statement is reviewed annually as part of our commitment to continuous improvement.
